Mr. Dixon's majority is given above to leave him one vote ahead.

The Official Canvass.

On Friday an Agent says that there is a canvass to be started by the state canvassers before the following counties, for the reason that some of them were canvassed previously on the 11th instead of the 15th.

Dixon, Sloan	1,457

—	1,511
—	3,598
—	3,074
total	7,473
3,074	3,074

It is probably not exactly the reason, but it provides that the county canvassers shall meet the next day after the canvass of their respective districts.

The rejection of these returns would affect the election of the 11th, because there was no man under present on the first day.

As no reason has been given for the canvassers in those counties to make their returns, as they have all taken it for granted that they will return over one day no matter what may be the reason. But a strict construction of law is against this supposition. If the canvassers give the certificates to the court on this ground, Judge Dixon is bound in the supreme court.

SLAVERY QUESTION.

Speech of Hon. Owen Lovejoy, of Ill.,
DELIVERED IN THE HOUSE OF REPRESENTATIVES APRIL 5TH, 1860.

(Concluded.)

I say, therefore, Mr. Chairman, that there is no justification for this practice of slaveholding, from the fact that the enslaved race are an inferior race. No justification from the pretended fact that it imparts Christianity and civilization to them; and none in the guarantees of the constitution. Now, there are some Christian men on the other side of the house; I want to put it to them, in all candor—for while I intend to speak of slaveholding with severe terms of reprobation as I possibly can, I do not intend to offend any individual personally—I want to know of you Christian gentlemen, how you are going to christen us when we do not give them homes?

A member—Gives them what?

Mr. Lovejoy—Homes—a legal sanction to the conjugal and parental relations. How are you going to christen men whom you turn out to herd together like the buffaloes that roam upon the western prairies?—You cannot do it. It may be asked, sir, when I confess that I have no control over this master, why discuss it? why talk about it?

Mr. Singleton—I want to know if the gentleman gives homes—

Mr. Lovejoy—I must decline to yield to the gentleman.

Mr. Singleton—I want to answer the gentleman's question by asking him another. I want to know if he gives homes to the negroes carried from the south to Canada and other places?

A member—The negroes he steals?

The Chairman—The gentleman from Mississippi is not in order.

Mr. Barksdale—I hope my colleague will not parley with that purjured negro!

Mr. Lovejoy—it is asked why discuss this question? Why talk about it, when it is confessed that we have no constitutional power to legislate upon it? I will tell you, Mr. Chairman. It will be recollect that Mr. Webster once said, when speaking of the threatened interposition of Kansas to snatch Kosciusko from the protection of Turkey, for the purpose of sacrificing him on the altar of despotism—"Gentlemen, there is something on earth greater than arbitrary or despotic power. The lightning has its power, and the whirlwind has its power, and the earthquake has its power; but there is something among men more capable of striking despotic thrones than lightning, whirlwind, or earthquake; and that is the excited and ardent indignation of the whole civilized world."

The telegraph reports the superintendence of the overland mail express has arrived in Genoa, Carson Valley, where he met the superintendent of the Salt Lake telegraph company, who states that the arrangements for the proposed connections are nearly completed, so that the express and telegraph at each end of the line will be ready to commence operations April 3d.

LOCAL DEPARTMENT.

Thermometrical Table.
By Mr. Andrew Palmer, Jr., at the Wisconsin Drug Store.
Date, D. A. M. 12 M. 6 P.M. WIND. WEATHER.
April 11. 54° 61° S. Cloudy, Clear.
April 20. 52° 73° W by SW.

Religious.—Rev. J. Clark of Rockford, will preach at the Baptist church to-night, to-morrow night and on the Sabbath.

Indian.—Three canoes with two Indians in each, besides porpoises, dogs, ducks and chickens, passed up the river through the city to-day. They had all their wigwam goods with them, and were on their way to Madison. We have frequent visits from the native Americans; they camp out and walk and hunt along Rock river, which was in former times a favorite resort for them. They are peaceable and inoffensive, and are looked upon here as having some rights which white men are bound to respect.

New Millinery.—We would call the especial attention of the ladies of this city to Mrs. Ulrich's millinery card. Her goods being all new, and of late styles, her assortment is peculiarly attractive. Mrs. F. is a practical milliner and her work will speak for itself, being got up with good taste and skill.

Attention.—Attention is called to the advertisement of P. J. Moriarty. He is a good attorney, and attentive to the interests of those who put business into his hands.

Horse Cleaning.—The "season of our discontent" has literally come. Witness carpets, stairs and rooms—dismantled windows, and a general up-side down look.

Whitman & Wilson's Sewing Machines.—The undersigned, traveling agent for the sale of Whitman & Wilson's Sewing Machines, would announce to the citizens of Janesville and vicinity, that he has arrived in town and taken rooms at the American House, where he has set up a full mahogany case machine, and also one of the lowest price, and invites them—especially the ladies—to call and see them operate. This machine makes the celebrated lock stitch without the inconvenience of a shuttle. It is so simple in its mechanism that any lady can fully comprehend it from observation. It is not liable to get out of order and will not drop stitches though run up to a thousand per minute.

It varieties of work are, hemming (and straight), falling (bias and straight,) all without busting—the hemmer turning in the raw edge and stitching it at the same time—quilting, quilting, spring work, tucking and gathering. It makes a stitch of equal texture on both sides that will not ravel, and cannot be excelled by anything wielded a needle. It is capable of sewing from the heaviest woollens down to the finest mull and flannele silk.

But it is unnecessary to multiply words upon the merits of this machine, for it will recommend itself. Then come one and all and see it, and do not think the agent will be pleased to show it to you because you may not purchase. Come when first you see this notice, for if any buy the agent must have time to school them in their use.

H. L. BROUGHTON,

Winton, the soap man, is in town, and will remain a short time to instruct families and hotel keepers in the art of making their own soap, viz: German, Brause, Extra Pale, and Transparent Soap. From 2 pounds to 50 pounds can be made with ease in any ordinary stove, and at a cost of less than one-half of the usual prices charged by dealers and manufacturers. Receipts with full and plain instructions sent on receipt of two dollars. Address,

A. H. COYNER.—We are happy to learn from Mr. D. Wilson, that our citizens are to be favored with a concert on Tuesday evening, the first of May next.—Mr. Wilson, as most of our readers are probably aware, has for some time past, been instructing a class in vocal music at the High School, and proposes to show the public what proficiency his pupils have been making in this most desirable accomplishment. He will be assisted on this occasion by members of his choir and the exercises will consist of every variety of choice vocal music, with instrumental accompaniments, and will be well worthy of the patronage and encouragement of our citizens.

A book canvasser states, on calling on a man in Arkansas to purchase a book, he said that he would be glad to have the book, but that he had one book already; and the idea of having two books seemed preposterous; that if he would buy the old book he would trade.

The London Morning Advertiser says that while hunting lately an attempt was made by an assassin to assassinate the emperor of Russia, which was happily frustrated.

The masonic lodges of Paris are about to present me address to the emperor, thanking him for his services in Italy. There are 100,000 masons in Paris and the department.

Benzig, the great French billiard player, is said to have declined the challenge of Michael Phelan whom he acknowledges to be "the best standard bearer of the game in the United States."

Ex Gov. Briggs of Pittsfield, Mass., has declined the appointment to the chancellorship of the Madison University, at Hamilton, New York.

Professor Agassiz is greatly afflicted with weakness of the eyes, in consequence of which he prosecutes his scientific labors with much difficulty.

RAILWAY ACCIDENT.—The train on the Pittsburg, Fort Wayne and Chicago railroad, going east Tuesday morning, ran into a tree near Fort Wayne. The locomotive was somewhat damaged, and the engineer's leg was broken.

The population of Washington territory is exactly 6,543; and the assessed valuation \$2,303,555. The territory has ten churches, thirty-one schools, five flour mills and thirty-one lumber mills.

LIFE INSURANCE.—Those desiring this safest and cheapest protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.

Thus while duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedented," we would cordially invite all our citizens to call at the office, south-west corner of Main and Wisconsin streets, and examine for themselves.
